

Why Rider's Edge?

24 Hours of Instruction

Class is more relaxed, the entire MSF curriculum is covered, and you are given more practice time on the motorcycle. Extra time is built in for individual attention.

6:1 Student/Instructor Ratio

Lots of personal attention from the instructors

Highly Qualified Instructors

*Instructors have gone through extensive training with the State of Texas, as well as, focused training from the Motor Company
*instructor ride daily and come from a variety of riding disciplines.
*instructors are evaluated every quarter to assure that they are maintaining our highest standards in training.

Dedicated Facilities

Our training facilities, classroom and range, were designed specifically for your comfort and safety. The Full Sized training range, located just steps away from the classroom, is textured cement for great traction and confidence while learning. Our run-off area outside the range exceeds safety standards established by Rider's Edge and the State of Texas.

500 cc Buell Blast

*The Buell Blast made by Buell Motor Co. is a light agile standard motorcycle, small enough for new riders but big enough to give all a smooth transition to their own motorcycle.

*Since the class is conducted at the shop all training bike are serviced and repaired by certified technicians.

Shop Personnel

The class is conducted at a motorcycle shop where experience riders work and are available to answer questions about motorcycle maintenance, protective gear and even great places to ride!

"Cloth Napkin Experience"

You are not just another student to us, you are a new part of the two-wheel family, no matter what bike you ride!
